Dear Affiliate Partner:

Attached is the latest Community Relations Quarterly Report to help you with your record-keeping and reporting requirements regarding the Children's TV Act of 1990. This report reflects the third quarter of 1995 and contains the following information:

1. **Programming furnished by the NBC Network that is specifically designed to serve the educational and informational needs of children 16 and under.**
2. **Programming furnished by the NBC Network that contributes, as part of NBC's overall programming, to serve the educational and informational needs of children 16 and under.**
3. **Public service announcements targeted to children 16 and under.**
4. **Non-broadcast efforts.**

As you know, beginning September 10, 1994, NBC's two-hour teen block has consisted of "educational and informational" programming. Beginning the first quarter of 1995, "NBA Inside Stuff" has also qualified as "educational and informational" programming. The producers continue to work closely with expert educational consultants to ensure that each episode of each program has an educational theme or objective, that the theme or objective is an integral part of the plot and character development of the program, and that the objective is fulfilled in ways appropriate to the teen audience. The educational theme of each episode, as articulated by the educational consultant for those programs, is indicated in this report.

In response to several inquiries from stations, please be assured that NBC Network programs designed for children 12 and under, when broadcast in the form and in the sequence distributed by NBC, contain no more than the maximum amount of commercial time permitted by law. You will be notified of any inadvertent overages by the NBC Network.

If you have any questions about these reporting requirements, please feel free to call my office.

Cordially,

Susan Haspel

THE PRINCESS & THE YETI

Lorena's father has brought the Dreams to his ski lodge with the agreement that they would work in the lounge in exchange for their vacation. Lorena is supposed to work the front desk but she is so self absorbed that she dumps on her friends to avoid her work and responsibilities. Soon it is apparent that business is slow at the lodge because of a monster called the Yeti, which terrorizes the guests. When Tony gets so frightened he runs away from the Yeti and into the woods, the kids find him in a trap, and make their way to a little cabin to get warm. A local old man lives in the cabin, in harmony with the wilderness. They find a Yeti costume hanging on a door, and he explains that to put pressure on Mr. Costa to preserve his home, he has been scaring visitors to the mountain. When the kids try to convince Mr. Costa to have a little mercy on the old man, Lorena doesn't support them because it will get in the way of her self interest. In an arrogant twit, she goes out to ski alone, and has an accident. The old man saves her life and she has a change of heart about the old man's predicament. She puts her needs aside to help the old man preserve his life on the mountain. ALL PLAY AND NO WORK

When Mr. Belding assumes the job of manager at the Palisade Hills Country Club, Screech hires the kids to work in several different areas. None of the kids really expected to work very hard, and all of them, except Megan, slough off their duties. Needless to say, they create much bigger problems for themselves and Mr. Belding when work is not performed adequately. Moreover, their inattention has caused large monetary losses for the club, for food which was purchased for a big barbecue the next day. This final catastrophe jeopardizes Mr. Belding's job. Although they are terminated, the kids are so remorseful for the problems they created that they come back the next day and work with Screech to undo their mess by implementing a substitute event, an inventive and impressive Hawaiian luau. Mr. Belding is spared a major embarrassment and the kids are permitted to return to their jobs. [Educational theme: When you have a job, your first responsibility is to do your work. When you don't perform, you not only compromise your chances for employment, you negatively affect the work performance of others who work with you or who supervise you.]

Their conflict escalates to the point that they have an on-air argument which ends the show and their immediate future in television. They recognize from their loss of a great opportunity, that the show they created was a hit because of their chemistry together, not because one of them was inherently better than the other. [Educational theme: Success which is attained through collaborative effort need not compromise the recognition of the individual contributions. She concocts a scheme to use this "record" to alienate her father from Ariel, but the crime is just an unpaid parking ticket. He revises his class presentation and tells the truth to his peers and teacher. [Educational theme: Imperfections exist even in the most idealized family history. Belding gives Screech the assignment of school newspaper advisor. In an effort to ingratiate himself to the kids he grants them all sorts of privileges to research an important story on sports discrimination for the paper. The problem with this action is that the kids have to prepare for their college entrance exams and are getting further behind on their studies with each issue of the paper. The conflict between priorities reaches a head when Belding misses the kids at his study sessions. He forces Screech to hold the presses until the kids finish studying and in the meantime follows up on the investigation of the scoop story. The kids really have to cram and Screech has to be the enforcer, exactly the responsibility he was always supposed to take, but avoided when he took on the newspaper. The coach is exposed for his extravagances for the football team, and the kids get enough studying completed to take college exams. [Educational theme: If you have a job to do, don't do favors and cater to others in order to get their friendship. Brian feels diminished in comparison to David and enlists Screech's help to keep David out of the way. However, David gains the upper hand by misleading Rachel with a lie about Brian. When Rachel puts it all together, she recognizes that David isn't the person for her. [Educational theme: Relationships have to be built on shared interests and honesty between the partners. Although Mr. Harrington is dismissive, Megan shows up at the pageant in a business suit and explains her position to the audience. She wins unanimously. The rivalry between Bayside and Valley is at its annual high point due to their pending football game. Mr. Belding has had a difficult time containing the rivalry to the football field. Both schools have been vandalized and emotions are running high as both sides prepare for the big day. Megan, who is a cheerleader for Bayside, meets a new guy at the movies who embodies her dream date. But what a surprise when he shows up at a pep rally and turns out to be captain of the Valley football team! The gang pressures Megan not to develop her relationship with him, and they also use her date as an opportunity to continue their pranks against Valley. Only when they see how hurt Megan is about giving up her relationship do they relent and recognize that rivalry really does need to be contained to the sporting event and not interfere with friendships. It appears this will be the main concern of the waning days of summer until Allison breaks some major news to Screech. She has received an acceptance letter to Julliard and plans to leave for New York in a week. Although Screech intellectually understands why Allison should leave, emotionally he is distraught. Allison's father, Big Ed, doesn't want her to go either, and devises a ploy involving Screech which he thinks will keep Allison in California. Allison falls for the ploy, but Screech cannot bear to see her give up her big opportunity.
